Using iPads in a Primary Environment
Monday, April 20th 2015

The Bertram ICT Team presents a full day iPad workshop designed to support people from the beginning of their iPad journey.

The day will start at 9:00am with a presentation on the key considerations for teachers, administrators and schools when starting their iPad journey.

This will be followed by a ‘hands on’ workshop to develop classroom ready skills using "Power Apps". Power Apps are applications used for many things across the curriculum allowing students to showcase knowledge and understanding of the topic.

An independent breakout session will enable staff to prepare and share a presentation they have created using one of the demonstrated Apps.

After lunch there will be an iPads and Assessment session, followed by an "iCafe", an open forum where participants ask questions, share ideas, plan for the future and share their successes.

The day will conclude at 3pm.

Please bring along your iPad and a short unit of work (to use during the hands on Power App session), if you do not have an iPad one will be provided for you. Please ensure you have access to the following Apps; Explain Everything, Popplet, Book Creator and iMovie.

Registrations commence at 8.30 for a 9.00am start.

$175 per participant
Morning tea, lunch and certificate provided
Registrations close Wednesday, April 1st 2015

Enrol online: http://www.bertramps.wa.edu.au/professional-learning-payments/
or return the registration form with your purchase order or credit card details to Bertram.ps@education.wa.edu.au
or fax 08 94192052.
