Bertram iDevelop
Integrating ICT and the Australian Curriculum
Monday, 22nd June 2015

The Bertram ICT Team presents a full day program including an iPad workshop designed to support the implementation of iPads within the Australian Curriculum. This professional learning opportunity is suitable for people at all stages of their iPad journey.

Recently recognised Apple Distinguished Educators Sarah Hill and Bronwyn Mace will present a range of content with both lower and upper primary focus and suitable for participants with varied skill levels.

The day will commence at 8:30am with registrations and coffee followed by a welcome and context setting. During the day you will delve into cross curricular planning and seamless ICT integration. You will gain first-hand experience of a cross curricular program and unpack how it was created. In the afternoon you will have the opportunity to apply these skills to your own context. Members of the Bertram ICT team will be available for consultation during the day.

*Bring along your iPad and daily work pad, if you do not have an iPad one will be available for you. A list of Apps and a link to our iTunes U course to be used during the session will be sent prior to the day.*

Registrations commence at 8:30am for a 9:00am start.
The afternoon will conclude at 3:30pm.

*$175 per participant
Morning tea, Lunch and certificate provided
Registrations close Wednesday, 17th June 2015*
